The University
HOMESTEAD ASSOCIATION

THE LANDS OF THE ABOVE NAMED ASSOCIATION are situated in San Francisco and are eligibly and most desirably located a joining the grounds of the Presbyterian University Society on which College buildings are to be at once erected The site is less than thirty minutes ride from Montgomery street; lying just west or back of the lands of the South San Francisco Homestead and Railroad Association and the Bay View Park, almost within a stone's throw of
ST. MARY'S COLLEGE.

The tract will require little or no grading, there being scarcely a single lot on which it would not benefit to build without any change of grade It commands a
Beautiful View of the Bay,
And its opposite shore and has a soil of extreme richness So great are the natural attractions of the spot that very many of the wealthy citizens of San Francisco have already purchased whole blocks in the same tract and design building residences thereon

The Rev E Thomas, D D,
Is President of the Association Lester L Robinson formerly Vice President of the Sacramento Railroad Company is the Treasurer, and Thomas B Lewis, formerly of Portland, Secretary
Four lots 25x125 feet each, constitute a share costing $316—paid in monthly installments of $10 each, after the first payment of $20 has been made
Maps and books giving full information of the work and of the Association can be obtained at the store of J L PARRISH & CO
It is an easy and a cheap way for young men to procure property which will in a few years make them independent.

OWYHEE MINING ITEMS

The following items are from the Owyhee *Bulletin*

THE MISSISSIPPI

This is a ledge, in our judgment, of undoubted richness Some one is lying at the mouth of the shaft which indicates the presence of rich ore in the ledge We should think from the survey we gave it that the quantity was great All that the Mississippi needs is the world to place it along side of the mines in Owyhee, is capital to develop its resources

If this mine and its extensions were in the hands of men of capital its richness would soon appear

ORO FINO

The character of this mine is too well known to require or stand in need of any praise from us Under the management of the present enterprising corporation, and the Sand's Brothers, the world will soon hear of great results The dump showed rock from the ore About 130 tons was already broken up assorted and ready to be hauled to the mill for crushing On the day of our visit they were taking out richer quartz than has ever before taken out of the tunnel The force employed consists of about 22 hands Among them may be enumerated such experienced miners as George W Sander Swale Nelson and S M Fry Thomas Cone, long and favorably known in this camp, is superintending the works From what we are able to judge this mine is almost inexhaustible Success to the Oro Fino!

NEW YORK

This mine is situated contiguous to the Oro Fino About 100 tons of rock have been taken out of the shaft and tunnel upon this ledge The quartz looks well and promises to yield a fair return to its owners The work is progressing fine ly The force employed we were unable to ascertain with certainty The Webfoot mill is now engaged in crushing the rock from this mine

Wool and the Wool Market Again.

The views we have from time to time expressed in regard to the manufacture and prices of wool in Oregon, have met, as it appears, seconded with the opinions of certain other newspapers of the State. Two of them, the *Unionist* and the *Courier*, with a pretended zeal for the interests of the wool growers, have endeavored, by covert insinuations or open charges, to make it appear that the OREGONIAN is in the interest of "speculators" and "opposed to the people." And what is the ground of these accusations? Simply that, in the first place, we stated that the new tariff on wool and woolen goods was not materially higher than the former one, and that the price of domestic wool would not be enhanced by it,—both of which statements have been fully verified;—and secondly, that we gave it as the opinion of those who are engaged in manufacturing, that in the present state of the market, with accumulated stocks on hand and large quantities of Eastern goods arriving to compete with our home fabrics, our own mills could not run if they were obliged to pay the prices which some farmers ask for their wool. We stated this as the opinion of the manufacturers; not as our own. It is impossible for us to have any interest inimical to that of the farmers of the State. But some of our Oregon newspapers have assumed to be the exclusive champions of the farmers, and so far have they been carried away by their superserviceable zeal, that they have studiously inculcated erroneous views of this subject and led their readers, by incorrect information, to make demands that can never be realized. The *Unionist* declared, week after week, that the new tariff would considerably enhance the prices of wool. We showed that such a result was impossible, and made a comparative statement of the old and new tariff rates to show that no material change had been made by the new law. Wool has since greatly declined in Eastern markets, and perhaps the *Unionist* by this time has learned that the new tariff over which it made so much ado, has not produced the effect it anticipated and predicted. It will also learn after a while that our mills cannot pay 25 cents per pound for wool with labor at its present rates, and compete with Eastern goods, and also that our woolgrowers cannot realize 25 cents per pound for their products by shipping them to Eastern markets. We regret that they cannot obtain the price; but our purpose is to state *facts* and not to *pretend* to be the champion of the farmers and try to support such pretensions by giving them erroneous information about a matter in which they are deeply interested. We should be glad to see our farmers get large prices for their wool, as well as for all their products; but we do not deem it our duty to tell them that they can easily get more than it will be in their power to obtain. When farm products command good prices, business is always good and the evidences of growing prosperity are apparent. Therefore we are always glad when our producers can get full prices for what they have to sell. But what sense is there in misleading them about the state of the markets? Were we to insist that our flouring mills ought to pay a dollar and a half a bushel for wheat, and advise farmers not to sell until they could get this price, we should be doing precisely what the *Unionist* has done in regard to the wool market.

The *Courier* treats the whole subject in a most philosophical manner. For instance, it "advises the farmers of this State to buy their woolens in Oregon and of Oregon manufacture, to the entire exclusion of Eastern fabrics." Did it never occur to the *Courier* that the farmers of Oregon will, in spite of anybody's "advice," buy whatever goods they can buy cheapest, without regard to the place of their manufacture? Such "advice" as the *Courier* gives is not likely to be followed so long as Eastern goods can be furnished at cheaper rates than those of our own manufacture. People invariably buy the commodities they can buy cheapest. This is illustrated by the course of those persons who buy the labor of others. A certain class among us exclaim vehemently against the employment of Chinese; but it is a noticeable fact that they themselves invariably hire Chinese labor when they can get it at lower rates than the regular market price. In this city those persons who employ Chinese labor most extensively, are members of that party which has most to say against such a practice. The same phenomenon is seen in other departments of business. The *Courier* advises everybody not to buy Eastern goods, and tells the farmers that they should purchase Oregon manufactures only; but the *Courier* and the farmers to whom this advice is tendered will, alike, purchase any goods they can get for the smallest amount of money. It is an excellent thing to patronize home industry; but nobody will patronize it when the products of foreign industry can be obtained at lower prices than those demanded for articles of home manufacture.

A Confession of Guilt.

The Copperhead organ at Olympia thinks the nominee of its party will get more votes in the coming election than Major Tilton got two years ago. It makes a singular confession of the causes which defeated Tilton:

> Mr Lincoln's assassination paralyzed at that particular time all political agitation to such an extent as to preclude every hope of the election of any one suspected, even though unjustly, of any partiality to the Southern States. Mr Tilton's expectations were instantly blighted in the Sirocco that swept over the land.

That is to say, loyal men hold the Democratic party, in a great measure, responsible for the rebellion and for that crowning act of horror, the assassination of President Lincoln; and the Democratic party made a virtual confession of its guilt by hiding its head and withdrawing its odious form from the sight of men! It felt its guilt, and like the criminal it was, cowered and slunk away before the indignation of an outraged people. This is the interpretation of the Olympia paper's words. This is simply what its confession means. If the Democratic party was not implicated in the dark transactions of the rebellion, at least so far as its sympathy and moral support could go, why was it afraid to confront its opponents two years ago, to assert its innocence and defy its accusers? Why did it bend before the storm of popular indignation, not daring to show its head while the remembrance of its dark deeds still keenly rankled in the breasts of loyal men? What was its conduct but an evidence of conscious, detected guilt, such as is always exhibited by the criminal? The Copperheads of Washington Territory were not singular in their conduct at that time. In every loyal State they were similarly paralyzed, and had it not been for the treacherous course of Mr. Lincoln's successor, their party could never have recovered from the blow. Are not Union men sufficiently satisfied by the confessions of Copperheads, of the complicity of that party in the great rebellion and its appalling crimes?

In a late speech in the Senate, Doolittle boasted that during the remainder of his official term he would not as he pleased, in defiance of the wishes of the people of Wisconsin. It will soon be the turn of the people of Wisconsin to act as they please, in defiance of the wishes of the renegade Senator Doolittle.

Numerous Copperhead editors are still "shuddering with horror" at the execution of Wirz and the assassins of Mr. Lincoln. None of these sensitive persons "shuddered" at the atrocities of Andersonville or the murder of the Chief Magistrate of the United States.

[DISPATCHES TO THE OREGONIAN.]

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, May 30.—No Eastern news to-day.

About three o'clock last evening John Schmibold, a lad aged seven years, son of John F Schmibold, foreman in Lewis Bros. tobacco store, was run over and killed by one of the North Beach & Mission cars, on Powell street, between Union and Filbert.

The Pacific Mail Company's steamer *Sacramento* sailed for Panama to-day with about 300 passengers and $1 596,823 35 in treasure.

Henry Cooper the special policeman who shot Timothy Collins in the leg at corner of Dupont and Post streets, on Monday last, was arrested on charge of assault with deadly weapon with intent to commit bodily injury. Judge Rix released the defendant on his own recognizance.

The marshals of the different eight hour associations met at Central Hall last evening to make arrangements for the forthcoming celebration. Seventeen associations were assigned positions on the line of march. Six bands of music were engaged, and it was agreed to appoint a marshal for that part of the procession composed of the friends of the eight hour system. The committee of eight hour delegates meet again this evening, and the marshals will meet at Central Hall on Saturday evening. The house carpenters' eight hour league will meet at Rushaway Hall to-morrow evening.

The Mikado Japanese troupe, consisting of seventeen males and females, have arrived and will commence an engagement of six nights, at the Academy of Music, on Monday evening. Their performances are spoken of as being quite wonderful.

Thomas Shannon, Surveyor of the Port, and other Custom House officials were brought before U S Commissioner Wheeler this afternoon charged with being owners of a part of the whaling bark *Jeannette*. The complaint sworn to by H Terrenbach charges that T Shannon, A H Gearing, Noah Brooks, Capt Reed Captain Cramer, Thos Flaherty, W. Herton, J P Bischoff and S H Fuller committed an offence against the United States, Thursday, May 23d.

Destructive Fire at Salem—Attempted Suicide.

SALEM, (Oregon), May 30.—Our city was again visited last night, with a destructive fire. The alarm was given between 12 and 1 o'clock, and before any assistance could be got on the ground, the fine livery stable of S and I. Durbin was in a sheet of flames. The fire spread with such great rapidity that nothing could be moved. Eighteen head of fine horses perished. Their loss is about $12,000; no insurance. It next caught to the extensive saddler shop of W. H. Watkinds & Co., and their building together with a large portion of their stock was destroyed. Loss, $5,000; insured for $3,000. By almost superhuman efforts the fire was confined to these limits. Buildings that stood within 20 feet were miraculously saved. There is no doubt but it was the work of an incendiary.

A respectable lady of this city attempted suicide yesterday. Physicians were immediately called and it was found the ball had entered near the heart. No hopes are entertained of her recovery. No cause is given for the rash act.

An individual calling himself Munson, was suspected of causing last night's fire and was arrested to-day. He waived an examination and was bound over in the sum of $1000; in default of which, was committed to jail.

The Office of United States Attorney.

PORTLAND, May 30th, 1867.

EDITOR OREGONIAN:

I have never deigned to notice in any manner any of the vile, scurrilous articles of the miserable dotard who edits the *Herald*; and if you will publish the following statement of facts culled forth by the article in this morning's *Herald*, entitled "United States Attorney," I hope it will be the last time you or your readers will be troubled with matters personal to myself.

Prior to the 8th day of June, 1866, I was the U. S. Attorney for Oregon, and at that date, in view of my election to the State Senate, I sent my resignation of the office of U. S. District Attorney to Hon. James Speed, Attorney General of the United States by the following letter:

> OFFICE U. S. ATTORNEY,
> Portland, Oregon, June 8th, 1866.
>
> SIR: I have the honor to tender to you my resignation of the office of Attorney of the United States for the District of Oregon to take effect from the first of September next.
>
> Very respectfully your ob't serv't,
> J. N. DOLPH,
> U. S. Attorney, Oregon.
>
> HON. JAMES SPEED,
> Attorney General United States,
> Washington City, D. C.

Sometime in August following, I received the following letter

> ATTORNEY GENERAL'S OFFICE,
> Washington City, July 28th, 1866.
>
> J. N. DOLPH, ESQ., U. S. District Attorney, Portland, Oregon. SIR: I am directed by the Attorney General to acknowledge the receipt of your letter of June 8th tendering your resignation of the office of United States Attorney for the District of Oregon.
>
> Very respectfully your ob't serv't,
> M. F. PLEASANTS,
> Acting Chief Clerk.

At the opening of the U. S. District Court for this district, at the November term, 1866, I was still in possession of the books, papers, bonds and other property of the United States, belonging to the U. S. Attorney's office, including evidence in suits then pending, and was familiar with the business of the United States then pending, and there was no person authorized to receive such property and papers. I appeared at the opening of said Court and exhibited a copy of my letter of June 8th and the letter from the Attorney General's office of July 28, set out above, and would have been gratified to have avoided acting further in the capacity of U S. Attorney. But as a matter of public convenience (and I might almost say necessity) and not because I desired to continue in office, which every attorney knows is more an injury than profit to me. I proceeded to perform the duties of U. S. Attorney, and whether the Court had the power to do so or not it did, upon the first day of said term, make the following order which remains on record in said Court:

In the matter of the appointment of United States District Attorney:

"Now at this day, it appearing to the Court that J. N. Dolph, Esq., had resigned the office of U S. District Attorney for this District, and that no person had been appointed and qualified as such Attorney, it is ordered that J. N. Dolph be and he is hereby appointed as U. S. District Attorney for this term of Court."

I have expected and desired every day since to be relieved from the duties of the office, and until that is done I shall not prove recreant to the trust reposed in me by the Government, or be swerved from my duty by the clamor of those who have plotted its destruction, and who, if they had had their deserts, would years ago have been hanged higher than Haman.

J. N. DOLPH.

HORRIBLE INDIAN BARBARITY.—The Salt Lake *Union Vedette*, of the 6th inst., has the following

> The horrid Indian massacre which occurred at Glenwood, Sevier Valley, about two weeks since, a report of which has been published, was attended with such atrocity that we cannot refrain from publishing the particulars, in order that Commissioner Bogy, Senator Doolittle and all of that ilk, may chew it as a cud while they are advocating the missions of mercy to the poor Indian. A family consisting of a father and his two daughters, of the respective ages of sixteen and 18, were attacked by a band of Indians under the command of Black Hawk, who have committed many depredations in that neighborhood. The old man had his brains beaten out by a club; the fate of the daughters were most revolting, their bodies were first violated by these savages, when they were put to death with extreme torture by the thrusting of rough knotted pine sticks into their bowels, causing a most horrible death. Read these facts, ye who cry "Lo! the poor Indian."

A TERRIBLE STORY.—A letter to the Southern Relief Commission, received to day, dated Woodstock, Tuscaloosa county, Alabama, April 12th, says:

> "In our deplorable situation, being almost destitute of food and clothing, without any hope of relief by a providential combination of circumstances, the news of your benevolent organization came to us, whereupon we called a meeting of our citizens, and organized our society, called the Hepzibah relief society, in this county, 30 miles from the city of Tuscaloosa, consisting of about 270 heads of families, averaging five to each family, equal to 1,375 souls, to make application to you for help to keep us from starvation, and we hereby humbly appeal to your Christian generosity for help.
>
> "Our language is not sufficient to describe to you the thousandth part of our suffering—our children without clothing or bread, or the means of education, in which situation we implore you not to let us remain. Help us speedily for mercy and humanity's sake, and God will bless you for so doing. If our leading politicians did precipitate us into an unholy and unnatural war, it was not our fault. If you know how many of us struggled against that measure, you could not cherish an unkind feeling against us. Our sons, brothers, husbands and fathers were hunted down like wild beasts, and dragged in chains to the field of deadly conflict, and many for refusing to go were shot down like dogs.
>
> "Gentlemen, this is no fancy picture. The war devastated our country, and in addition thereto a failure of a crop last year leaves us in an awful condition, and can you, or will you refuse us relief? I write as the representative of 1,375 starving poor. Be so kind as to send us bread, meat shoes, hats, clothing, or anything you can spare."—*N. Y. Post, April 12th.*

NOTICE TO THE PUBLIC.—From and after this day the well-known FRENCH LAFAYETTE RESTAURANT will serve a first class table at the reduced price of Seven Dollars per week.

"IN CITY OR COUNTRY," in town or hamlet, the FAMILY DYE COLORS are equally popular. Storekeepers say it is no use to have any but the Howe & Stevens stamp, for the people know no others, and believe in none. They are equally the best, the most reliable and the cheapest. Smith & Davis, agents.

TO MOTHERS.—MRS. WINSLOW'S SOOTHING SYRUP for children, is an old and well-tried remedy. It has stood the test of many many years, and never known to fail. It not only relieves the child from pain, but invigorates the stomach and bowels, cures wind colic, and gives rest and health to the child, and comfort to the mother. Hostetter, Smith & Dean, Agents for the Pacific coast.

PERFECTLY SATISFIED.—Every one that visits DUCHTEL'S PHOTOGRAPH GALLERY, comes away perfectly satisfied with their bargains. The highest style of the art is reached in the beautiful Sun Pearls and Photographs.

CERTAINLY.—Every person walking along Front street, drops in the store of KOHN & FISHEL, No. 91 Front street, where they can be suited with everything from a fine suit of clothes down to a needle, at prices that defy competition.

Consumption like the Rattle Snake, always gives warning of its approach. A hacking cough, dull pain in the chest, difficulty of breathing, are the indications that there is more or less irritation of the lungs. If this be neglected, and go on until pustules are formed, followed by tubercles, which sometimes eat off the blood vessels, death will be the result. **Allen's Lung Balsam** will heal the irritated parts, allay the inflammation, removing the phlegm and matter, thus stopping the cough, and preventing fatal consumption. For sale by all Medicine Dealers. dtc

PERRY DAVIS' VEGETABLE PAIN KILLER, after a thorough trial, by innumerable living witnesses, has proved itself THE MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken internally in case of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy in case of Burns, Bruises, Sores, Sprains, Cuts, Sting of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century.

LOUIS A. CARNETT.

LOUIS A. CARNETT.....President and Manager.
JOHN HEWSTON, Jr.....Chemist and Superintendent.

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the mining and commercial value of bullion.

Their charges hereafter will be as follows:

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS.

One-eighth of one per cent. (heretofore a quarter) for all amounts over $1,000, and two dollars for any smaller sum. Returns made in twenty-four hours.

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS.

Two dollars for the gold contained, up to $1,000, and one-eighth of one per cent. for all amounts over that sum, and one per cent on the silver contained. Returns made in twenty-four hours.

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS.

On bullion under 300 parts gold, 2 cents per ounce.
On bullion from 300½@600 parts gold, 4 cents per ounce.
On bullion from 600½@750 parts gold, 5 cents per ounce.
On bullion from 750½@849½ parts gold, 8 cents per ounce.

Above 850 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

FOR COINING GOLD.

This charge will be the same as at the Mint—a half of one per cent.—and which is paid by us to that institution. But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

A LITTLE ADVICE, GRATIS.—The season of the summer fruits, of the orchard and garden, will soon be with us, and in advance, we volunteer a little advice which, if heeded, may be useful to our neighboring farmers, as pro-ducers, and to our city people as consumers. We recol-lect that last year—and we presume that was but a repe-tition of former years—early fruits were not over plenti-ful and were held at such exorbitant prices that nearly half the people, including the greater part of the working classes, were debarred from using them except as luxu-ries, to be indulged in only occasionally. Strawberries, for instance, first, fifty cents per pound and afterwards twenty-five to thirty cents, were quite beyond every day use, save by families of independent means. It was the same with cherries and most other small fruits. In a country like this, where all such crops are most bountiful, it would seem that there is something radically wrong when everybody cannot afford to use the most common fruits on their tables whenever appetite may call for them. A part of this wrong undoubtedly lies with the producer and another portion of it with the city. Last year, notwithstanding the high prices charged the consumer, only about half the crop was put in mark-et; *the other half rotted or went to waste in some other way.* What we want to say to the producer is, gather all your fruits and sell all you do not want for your own use. You ought not to expect or wish to get just as much for half as for the whole. You might just as well allow your grocer to bring on a stock of goods and sell you one half for the same amount as he ought to have for the whole, allowing the other half to go to waste. The grocer would not be losing anything but the buyer would, for cannot say that the crop are larger than the demand—it is the price which forestalls demand. One trouble is, the producers are too high-toned and you want to live and get wealthy on the investment of half your time and labor. The producers of this country do but little more than half the work that the same class in California, or the Eastern States, perform. You work far less hours per day and weeks lose per year than the laboring class-es of this city. You get wealthy, notwithstanding, while poor people here famish poor. This is unequal and unjustly heard upon the laboring people of this city the share which the city has in putting the prices of early and rare fruits beyond the reach of the common la-borer, is this: The city has no market regulations; the farmer brings in his fruit and instead of selling directly from market place, to families, or even to those dealers who supply families, he is frequently met by a small specu-lator who pays him only a moderate price for his fruit; the speculator sells to the family grocers making a good profit; the grocer must have his profit; and by the time the families get the fruit, the various profits, added to the cost paid the producer, make a price that is fearfully high—to the consumer. This evil could be corrected by a little judicious legislation by our City Council. Let them establish a market place, (designating some point, if not ready to build a market house), establish selling regulations, forbid peddlers from wagons selling from door to door or in any other than the market place. If properly regulated, the market place would afford the best chance to sell every day at exactly the estab-lished price (for prices would regulate themselves natu-rally according to supply and demand) and give the con-sumer an opportunity to buy fruits and vegetables fresh, from first hands. A few of these things properly regulat-ed would result in much good to all concerned.

AT OLD BOOK.—A day or two since, Mr Meamdorffer of this city handed us a bound copy of "The Universal Magazine of Knowledge and Pleasure," containing the numbers from July to December, both inclusive, 1758. The following is a copy of the title page: "The Universal Magazine of Knowledge and Pleasure; containing Essays, Letters, Debates, Poetry, Musick, Biography, History, Geography, Voyages, Criticism, Translations, Philosophy, Mathematicks, Husbandry, Gardening, Cook-ery, Chemistry, Mechanicks, Trade, Navigation, Archi-tecture, and other Arts and Sciences; which may render it Instructive and Entertaining to Country, Merchants, Farmers and Tradesmen. To which occasionally will be added An Impartial Account of *Books* in several Lan-guages, and of the *State of Learning in Europe.* Also *the* Stage, New Operas, Plays and Oratorios. Vol. IX. Published monthly according to Act of Parliament. By *John Hinton* at the *Kings Arms* in St. Paul's church yard—Price Six Pence]." One would suppose the *have a large promise*, for the small sum of six pence, but when looking through the volume, we find something in every number upon nearly all the subjects mentioned. The style of composition is quaint, the illustrations clum-sy and stiff, and the mechanical execution generally, is such as to cost old-looking to the printer of to-day. An in-dex to the contents of a supplement is furnished thus "Concluding The Life of Dr. Jonathan Swift, Dean of St. Patrick's, Dublin, *with his head curiously engraved*," &c. In the news summary for December, occurs the fol-lowing, of date December 18:

December 18.

There is advice from South Carolina of the 8th of Octo-ber, that they had had excessive rains for many weeks past, which had swelled most of the rivers to such a degree as had hardly been known in the memory of man; and that by a most late computation, the floods had car-ried away to the amount of 8000 barrels of rice. The same ad... add, that they were under great apprehen-sion of having an Indian war to struggle with; that hardly a day passed without expresses arriving at Charleston, with accounts of the most horrid murders and outrages committed by the Indians on the outsettlers, and that they had been the audacity to come within a few miles of the town, and fired on a party of the militia who were mustering there, by which one Capt. Lampriere and his son were killed on the spot, and several others wounded, two of them mortally, since dead. A silver-mounted gun, which ap-peared to be French workmanship.

ARMY CHANGE RESULTED.—The subjoined correspon-dence and resolution sufficiently explain themselves:

PORTLAND, May 30, 1867.

EDITOR OREGONIAN:

In the *Herald* of this morning I notice an article under the head of "Vancouver Correspondence," concerning the game which was played at Vancouver on the 29th inst., between the first nine of the Occidental Club, of that place, and the Pioneers, of Portland, in which the writer made one statement which I feel it my duty to correct. I quote from his letter: "The umpire selected in the morning, who in violation of the good faith imposed in him, acted as partial on the second inning, in favor of the Occidental Club, that even they to whom (I am proud to say) he is an old time friend, declared that he was speaking in so one sided a manner that he must be removed and a new one put in his place." In reply, I would say that this is fully contradicted, as will be seen by the subjoined re-solution, adopted at a special meeting of the Pioneer B. B. Club, held this evening.

THEO F. MINER,
President Pioneer B B Club.

Resolved, That we, members of the Pioneer B. B. Club, who were present during the game, do unanimously en-dorse the conduct of Mr. Backenstos as an Umpire and as a gentleman.

Resolved, That we, members of the Pioneer B. B. Club, who were present during the game, do unanimously en-dorse the conduct of Mr. Backenstos as an Umpire and as a gentleman.

Resolved, That a copy of the foregoing resolutions be sent to the *Daily Herald* and DAILY OREGONIAN for pub-lication.

THEO F. MINER, President.
A. M. WILCOX, Sec'y *pro tem.*

THE WASHINGTON GUARD'S PIC-NIC.—The pic-nic of the Washington Guard and guests, yesterday, was a great success. The Guard, after marching through the principal streets, led by the Mechanics' Brass Band, went on board the steamer *Okanagan* at a few minutes before 10 A. M. The guests were already on board, to the number of not less than 500, of whom a large number were la-dies. The steamer left immediately and arrived in due time at Oswego, where the party went on shore and had a pleasant run to the picnic grounds, about a quarter of a mile in the rear of the village. Here the Guard had fitted up their army tents for the accommoda-tion of visitors, a dancing floor roofed with ever-green arbors in the grove, etc. The sports of the day began at once and the par-ty had an unusually gay time, if we may believe appearances, till the hour of returning. A large por-tion of the party entered their interest in the new manufacturing establishment of Oswego, by visiting the mills and mines of the Oregon Iron Company; being kindly shown around by Mr. Leonard. At two o'clock, the little steamer *Minnehaha* was placed at the disposal of those who wished to take a trip up Oswego Lake, and about 200 persons went on board and made an excursion, while the rest of this party went on with the dance and other amusements at the pic-nic grounds. The pleas-ure of the day were without a single interruption, everything having been exceedingly well ordered before-hand. At 5 o'clock P M., the party went again on board the *Okanagan* and landed at Portland at a little after six, every one, so far as we can learn, having en-joyed a day of uninterrupted happiness. Capt. Mills and his crew deserve very great credit for the unusually kind manner in which their entertainment was con-ducted.

INSURANCE PAID.—Mr. E. P. Fitzgerald one of the losers by the late fire at Idaho City, was yesterday paid $10,000 by the agents of the Pacific Insurance Company—Messrs. Ladd & Tilton. The amount secured by that company, $15 & Co. lost $30,000 of which sum they were se-cured $10,000 by the Pacific Insurance Company and $7,000 by the Union Insurance Company. This prompt payment to Mr. Fitzgerald illustrates the advantage of being insured by a company of ample capital and busi-ness like manner.

MR.—Mr. J B Congle, an old and well known resident of Oregon, has a large and complete saddlery establishment at 88, Front street, near the American Ex-change, where can be found everything in the line of sad-dlery hardware, all sorts of harness from a gold plated carriage harness, down to a dray harness, saddles of every description and a general stock of goods. Congle's is a good place to buy, either at wholesale or retail.

PIONEER CONCERT.—The third concert of the Portland Philharmonic Society, is announced this morn-ing in our advertising columns, for Friday evening June 7th. The purpose of this concert—to aid the poor of the city, is a noble one and should meet as noble a response from the charitable public of the city. We shall hope to see Pro Pino Hall filled on that occasion with such an au-dience as it never held before.

ACCIDENT.—Mr. Witherell, Captain of the *Pioneer's* base nine, met with a painful accident at Vancouver, while playing at the second inning. Catching the ball, one of his fingers was put out of joint, but having on a good head of that spirit which never surrenders, he played the game out without stopping for repairs.

ARRIVAL.—Arrived per steamer *Senator* from Oregon City, Wednesday, May 30th 185 bales wool, 78 ... bales, 1,509 qr sks flour, 555 bags wheat, 10 ... bales woolen goods, 100 bags feed, 6 boxes mdse, 11 hlf ... bbls, 2 bags liquor, 15 boxes eggs, 68 sks bran, ... sks mdse, 3 boxes produce.

SUICIDE AT SALEM.—The telegraph, yesterday, announced that a woman of Salem had the day before attempted sui-cide. We learn from persons who came down on the stage that the woman is the wife of Mr W B Lyte, auctioneer. Domestic trouble is reported as the cause of the act.

DRY GOODS, CLOTHING, GROCERIES, Etc.—See the new advertisement of D. Metzger, who deals in dry goods, clothing, groceries and general merchandise, at No. 175 Front street. Give him a call and you will be satisfied that he is disposed to do the fair thing.

SAILED FOR SITKA.—A telegram from Victoria, yester-day, says: "The steamer *Fidelities* sailed last night at nine o'clock for Sitka, with a small number of passengers and 70 tons of freight."

RECORDER'S COURT.—The only case in the Recorder's Court, yesterday, was a charge against Thomas Hogan for obtaining money under false pretenses, and it is still pending.

THE ALERT.—We hear that the steamer *Alert*, has been very nicely refitted and will be substituted in a few days for the *Senator*.

TREASURY RECEIPTS.—Wells, Fargo & Co., received yes-terday from the upper country $10,000 in treasure.

ATTENTION WASHINGTON GUARDS.—Were not those suits that were worn on the pic-nic yesterday just the thing? Barman Bros. know the wants of the community, and are always on hand to supply them.

STATE ITEMS.

They are organizing a brass band at Amity.

They are preparing to celebrate the Fourth of July at Jacksonville.

The Yamhill county people seem to be spending most of their time talking about railroads.

Several pack trains have set out from Umatilla for Lem-hi within the last few days.

The Roseburg *Ensign* in common with the other papers of Southern Oregon speaks of an extraordinary exodus of people to California.

A gentleman who lately arrived in this city from a tour through the Southern part of the State, informs us that he saw a drove of sheep over two miles long which was collected in Benton and the adjoining counties to be driv-en to Nevada.

The editor of the Roseburg *Ensign* has seen several pieces of cinnabar lately, from ledes in this county, heavy, and full of quicksilver. A gentleman living be-yond Canyonville tells us there is a mountain of this min-eral adjoining his farm.

A Jacksonville paper speaks of an unusual exodus of people from this State to California. "Every day we witness covered wagons passing through our streets, on the way south, and we can form no estimate of the num-ber who pass along the valley road—which is more com-monly traveled by emigrants than the one passing through town."

The Roseburg paper says: On the 20th a motion was filed to set aside the verdict against Fitzhugh and Hun-nam, which was argued on Tuesday and overruled. Fitz-hugh was then sentenced to five years, and Hunnam to one year in the State's Prison. They were then admitted to bail; Fitzhugh in the sum of $5,000, and Hunnam $2,000. The bail was immediately given and they were released.

The Umatilla *Press* says: Mr. Purvin left Umatilla for the Blue Mountains last Thursday, to obtain the knees and gunwale for a steamer, which is to ply between this place and some point on the Yakima. The enterprise is a worthy one, and it would not be a bad investment for our people to give Mr. P. a little evidence that we ap-preciate the undertaking.

The Oregon City *Enterprise* says: "The work" of erect-ing an extensive oil mill in this city the ensuing season goes bravely on." The machinery is now on the way out from Atlantic ports, and is expected soon to arrive. Negotiations have been pending between Mr. Cartwright, of the Salem company, and the company of this city, and a consolidation of interests will perhaps be effected next week. Mr. Cartwright is expected to arrive here on Wednesday next for the purpose of arranging for a site for the works.

Mr. John Minto, of Marion county, sheared fifteen of his bucks this spring that averaged fourteen pounds of wool apiece. Five of the best averaged seventeen and two-fifths pounds; and the best one yielded twenty pounds. The time of growth of the wool on the above sheep was fifteen days less than one year. The best yield was from a cross between a French and Spanish Merino. The average yield last year from bucks of the same flock, clipped when the sheep were a little over one year old, was twelve and six-seventeenth pounds.

A correspondent at Baker City writes to us complain-ing of the irregularity of the mails in that part of the State. He says that those who order their paper by or-press get it in due time, but that the mail it drives weeks behind time. The trouble, he thinks, is in the Blue mountains, where the mail matter is left behind and pas-sengers carried in its stead. This spring the mails are more uncertain than usual, because there are more pas-sengers to carry. We ask our friends in that part of the State to be patient for a short time; the route, we trust, will be here in a few weeks, when we will call his atten-tion to this and divers other complaints about mail irregu-larities.

Several correspondents write us from Umatilla about the school at that place, and in that connection remark that the local paper, though it made a great ado over the election of Directors a short time ago, claiming a splendid Democratic victory by twelve majority, now takes no no-tice of the school, and disdains to pay any attention to so small a matter as a public school examination, or to al-lude in any way to the progress the school is making. Our friends should not be unreasonable. They should remember that it is a Democratic habit to take no interest in anything which cannot be turned to partisan account, and as there is no voting to be done in their city school, the local paper has not the slightest interest in anything pertaining to it.

A correspondent writes us from Tillamook: We have one of the best bodies of land on the coast, and one of the best places for a laboring man to get a home. There is plenty of land here yet to be occupied, and all that is want-ed is the hardy industrious man to make the virgin soil bring abundant crops. This is one of the best localities in the State for the dairy business, and a common cow here will yield one hundred pounds of butter in one sea-son. Our bay is the best inlet on the Oregon coast. The water is thirteen feet deep on the bar at low tide. Our waters abound in fish, and we have a great abundance of almost every variety of good timber. We want to see these natural resources developed, and are assured that when Tillamook becomes known, its advantages will not be ignored.

Something New in Dental Surgery.

Extracting teeth by Dr Richardson's apparatus, with Ether or Rhigolene Spray, is local in its application, the teeth and surrounding parts only becoming insensible to pain. Those suffering from bad teeth can now have them removed free from pain and without the effects of inhal-ing chloroform, ether or nitrous oxide (laughing gas)

N. B.—To strangers I would say, that a constantly in-creasing Dental Practice for the last 5 years in this city, will be a sufficient guarantee for them to receive a First-Class and Finished Piece of Work. Numerous testimo-nials to the same can be given at the Office.

The Chinamen at Oroville.

At the meeting held by the Chinese at Oroville, California, recently, a copy of the resolutions adopted was served upon the cooks of Zach. Baker's Union Hotel, and as that establishment had become known as a sort of headquarters for anti Coolie men, the result was a rolling up of blankets and a demand at the office for settlement. This carrying the 'war into Africa,' says the Butte *Record* perfectly astounded our Georgia friend Zach., who in great trepidation inquired the cause of their sudden determination to leave He wanted upon the Chinese Committee, when the following conversation ensued

Zach—"Hure, John, what in thunder are you taking my China cooks away for?'

Com—Missy Baker, you shabbe anti Coolie? Chinaman no cook for anti Coolie You talk anti Coolie, bime bye you hab much speak at your house, and drive Chinamen all out the country, no can cook for anti Coolie, no good"

"But I can't get anybody to cook You must not take them away It will destroy the business of the house"

"Missy Baker, you shabbe anti Coolie cook, you get 'em, they cook velly good, you get 'em"

"Blood an' thunder! I can't get 'em! Here, John, you come back, I'll say no more about anti-Coolie"

"But, Missy Baker, you talk through the Butte *Record* paper man, you put up one post to whip Chinamen, forty times but one—no good. No can cookee"

"You no savs, John, that don't mean Chinamen, it means the way we used to whip the lazy niggers down in Georgia!"

"Ah, me shabbe, you no like nigger; you muchy likee Chinaman?"

Zach—(with a ray of hope and a prospective supper), "Ya-as!"

"But, Missy Baker, two tree week ago you muchee talkee to county house, to velly few 'Mullean men scattered over large room—you likee Dutchman, you likee gleen Illishman; you sleep with them, you make them your friends and neighbors, you eat with them, you sleep with them, velly good. You no likee China chop sticks, you no eat, you no sleep with Chinaman, he alice time steelee chickee, you drive 'em all out the country. No good. You shabbee, Mr. Baker? Chinaman buy your lumber, pork and barley, mabbe one, two, tree tousand dollars a week; you muchee likee sell; you no likee Chinaman. No good. No buy nothing any more."

Zach, loquitor—here's a go. A boarding house without a cook; an extensive business without a customer. Wa'al, I've made some sudden changes in politics without producing congestion of the brain, and here's another crisis arrove. Shall I prove equal to the emergency or become a martyr to anti-Coolieism. Business is business. Away with principle. "Here, John, you don't understand—my speech at the Court House was against Dutchmen and Irishmen, and in favor of Coolies men. You savs! Somebody lied when they told you I spoke against Chinamen. They are the most pleasantest, sensiblest people I ever saw. I have always believed the equality of Chinese and American races, and that they ought to live in universal brotherhood. If not driven out of the State by the infernal anti-Coolie fanatics, California will 'flourish like a green bay tree.' It is strange that the races will always be quarreling when they all sprung directly from Adam. The Chinamen are the mostest noblestest of men and and brethren, they are not an inferior race of men; if I have misunderstood the situation I have promptly made amends. The extremes of Caucasian Ethiopian blood are the most beautifulest combined and intermingled I have ever saw, and I have beat the grass and killed rattlesnakes from Georgia to California."

"Missy Baker, you speak 'em velly good; but Chinaman he no shabbee Adam; Confucius is the Chinama's glate father; you no shabbee him?"

"I have never saw him; but have no objection to acknowledging him as the first created of all men, and the father of the whole human family. Great God, why hast thou forsaken me and Georgia?"

"Missy Baker, Chinaman no shabbee Mellean man's God; too muchee bave Chinaman, too muchee anti Coolie; no good Missy Baker, you shabbee Josh; he velly good."

"I never yet have saw him; but I will acknowledge and accept him. Now, John, go to work."

"Missy Baker, you no build 'em anti-Coolie speak 'em stand; you have no anti-coolie around your house, you no speak 'em anti-coolie."

"No; I'll build no stand; I'll kick out all anti-coolies, and say no more. Now, John, go to work."

"Missy Baker, heretofore you pay China cook forty dollar one month; too muchee. You pay forty-five dollar one month; velly good."

"Ya-as"—[Exit Zach, talking to himself about the mostest heathenish, unreasonable pagans he ever have saw.]

Chinaman among the pans and kettles of the kitchen—"Missy Baker velly good Chinaman; bimeby him name Ah Zach, him wear a long cue, and he big Mandarin."

SINGULAR DISCOVERY OF TREASURE-TROVE.—A singular discovery of treasure trove has been made on the sea-beach midway between Seaton Barow and West Hartlepool, England. In consequence of a very boisterous sea rolling on the coast, all the surface sand has been washed from the beach for upwards of a mile on the West Hartlepool sands, and the layers of peat and gravel are now exposed, in the midst of which the discovery has been made. On Saturday afternoon a fortnight ago, some workingmen were walking along the beach, and being astonished at the unusual appearance of the surface by the deposit of such a quantity of peat, curiously prompted them to turn over a portion of it with their walking-sticks, and they discovered, several coins which were imbedded in the peat. The coins were quite blackened by being subjected to a little rubbing; they were Spanish silver-dollars, about the size of English crown-piece. A further search with spade and large numbers were found in a comparatively broad area of the beach, and hundreds of persons flocked down on the beach to search for the treasure. Some persons are reported to have obtained $90 or $100.

Altogether several hundreds, if not thousands, of the coins have been recovered, but as persons are generally not over-willing to acknowledge the number they have found, a proper estimate cannot be made The coins are of the reigns of Cornelius the Third or Fourth, dated from 1720 to 1804, and are in a good state of preservation. Some gold coin, a gold crucifix, and a gold ring have also been picked up embedded in the peat. The deposit of so many coins at this place is accounted for by the fact that in the year 1829 a vessel called the *Dash*, of London, came ashore at this particular spot. The wreck was purchased by Messrs. Sheraton, Whitelock & Thompson, and when it was broken to pieces about £300 worth of Spanish dollars were found concealed in the timber of the ship. The vessel had formerly been engaged in the slave trade, and belonged to a Spanish port, but she was captured by an English man-of-war, and afterwards sold to a gentleman at Woolwich.—*Bulletin.*

FASHIONABLE ABOMINATIONS.—Waterfalls were bad enough, hoop-skirts—tilters—are inventions of the devil, low-necked dresses are deadly enemies to man's morals, but with a pocket full of tracts, and the nerve to close one's eyes when necessary, a fellow might possibly reach heaven by running the gauntlet of female fashions. But the latest break in the hair dressing line "caps the sheaf." Fancy a lard keg, wrapped about with horse hair and covered with a colored minnow net, strapped upon the back of a lady's head! Yet we daily see ladies on our streets wearing 'em. They think, no doubt, that it enhances their beauty. So do the Caffie niggers from whom the fashion is stolen. The abomination ought to be called "Caffies." It's their proper name It's an ugly word, and the thing is as ugly as the word No pretty woman should wear one. Long hair in a woman is an excellent thing—an ornament than which no other ornament is more becoming. And to fancy that which God has given her to be plaited and twisted until it protrudes from the back of her head like a horse's plaited up to avoid the mud. It's enough to make a fellow forswear the sex that is fit tending to the worship of but one god, and that god—Fashion. —*Louisville Journal.*

A stop was recently put to a proposed rebel demonstration in Memphis. We copy a dispatch of April 25th:

In view of the proposed ceremonies at Elmwood cemetery to-morrow by the ladies decorating the graves of Confederates, Capt O. A. M. Estes, 25th infantry, commanding the post, has addressed a letter to Mayor Ludlam, in which he says "It becomes my duty as the military representative of the Government to see that a stop be put without delay to such proceedings." In conclusion, he desires the Mayor to prohibit any procession, speeches, or public demonstration, in order to prevent military interference, and to confine the arrangements to simple acts of mourning for deceased relatives in the customary manner.

The "Gangs" of Rural England

The London *Spectator* of March 23d has the following

About fifty years ago the prices for corn being very high, the land owners of the districts of Lincolnshire, near Louth began inclosing the Fen on a great scale Cottages not paying, they did not build many, and the farmers gradually collected bands of children of both sexes, and set them to work under an overseer The system was found profitable, particularly to owners of close parishes who were thus enabled to pull down cottages and so completely abolish poor rates, and it gradually spread over other parts of the country, and then into Huntingdonshire, Cambridgeshire, Norfolk, Suffolk, and Nottinghamshire, till it became a regular trade Men out of work, or without characters, or Nomad by instinct, went about from village to village hiring children at so much a week, and then re-letting them to farmers at an advanced but still moderate rate, till at the present time it is believed that upwards of three hundred of these "public gangs" are in existence, each with its gang master and about twenty children of both sexes. The farmers, moreover, finding the supply of cheap and organized labor convenient, adopted the system for themselves, and organized private gangs among their own cottagers, till the total number of children thus employed amounted to several thousands more. Certain evils connected with the practice seem at last to have struck the local clergy. Parliament was induced to act, and the Home Office ordered an official inquiry into the system. The report of the Commissioners has been received and printed with the evidence, and the latter confirms the worst stories current.

The gang system, as at present carried on in those counties, is declared by witnesses of all kinds and classes—clergymen, farmers, laborers, old gang-masters, mothers of girls who are in the gangs, and decent laborers' wives—to be fatal alike to health, to civilization and to morality Children of both sexes and of all ages, from five up to sixteen, are, in fact, sold by the wretched laborers to the gang-masters at so much per head per week, generally, we are bound to add, out of the direst poverty The ganger having collected his children, takes them away to his job, forcing them to walk, or if needful, to carry each other, for distances which often involve of themselves great cruelty Five miles out and five miles back is thought nothing of, in addition to almost continuous labor for at least ten hours a day. This labor is generally weeding, or picking stones, perhaps the most exhausting labor a child can be called on to perform. The laborers in many English parishes are coarse enough, but among these poor wretches civilization disappears. Upon this point there is an overwhelming concensus of evidence, even from the few farmers who pronounce that the system is indispensable to their tillage. The single amusement is obscene talk, which becomes so shocking that the very laborers are revolted, and declare they would sooner turn out of the road than meet the gangs returning. All the offices of nature, say twenty witnesses, are performed in public by both sexes, without the faintest effort at concealment. Boys and girls of all ages bathe together stark naked, and the most infamous actions are boasted of with a shamelessness rarely found among savages. The gangs are the special resort of all girls who have lost their characters, and the gang-masters often set themselves to deliberate corruption. One witness, a bookseller, who had belonged to one of these gangs, informed the Commissioner distinctly that the gangers set the children to singing obscene songs to enliven the road home, and it is clear from all manner of incidental testimony that the dinner hour is often the signal for horse-play, which degenerates into deliberate obscenity. No doubt much of this is due to an excessive looseness of manners still uneradicated in very many parts of the country, and indeed, incradicable until the English peasant has been rehoused; and it is quite possible to confuse a low civilization with a degenerated morality. But the universal testimony of the local witnesses is that the girls and boys employed in these gangs are much worse than their own brothers and sisters not so employed; that the evil is deepened by aggregation, and, as we should add, by excessive toil. Gleaners going out are decent, but hasten to them coming home. Women employed in the fields are everywhere the worst on the country side, and if the labor involves wandering or night work, as in the case of the hop-pickers, civilization disappears, and whole farms become temporary brothels. Put among these gangs the evil strikes society at the roots. These gang laborers are children, forced to labor by their parents, deprived of the possibility of education, made lustful by forced companionship, brutal by compulsory association with brutes. Mothers, themselves bred affiong associations which at least kill all squeamishness, repeat to the Commissioners one unvarying song—"I would rather hunger"—their strongest asseveration—"than let my girls go to field." For, be it remembered, the evil does not pass with childhood. The gipsy taste is soon aroused and becomes one of the strongest of the passions. The girls who have been in the gangs will rarely take to other work, never go into service, and when married leave their children at home drugged with opium to go out to the fresh, rough, "larky" labor of the fields, where there is "company," and paramours at discretion. If this account is considered too strong, all we can say is, we have carefully toned it down from reports mainly guaranteed by local clergymen who, like the Vicar of Chatteris, doubt whether any chastity is left among villagers where ganging is common; or, like the Rev. M. B. Jackson, assert that the young women are utterly shameless, all female delicacy of character is utterly gone;" or, like the rector of Bramhall, who is a magistrate, testify that cases of indecent assault are infrequent in his district, because "little is thought of such behavior, and it is passed over unnoticed;" or, like George Moore Smith, who holds gang labor to be absolutely indispensable, but is so convinced of the immorality of the system that he would prohibit mixed gangs by law.

CAUSES FOR DIVORCE.—Chicago is a good place to live in in some respects, but something—is it the air or water, or both, or lack of either in a state of purity?—makes it a terrible place for matrimonial infelicities. In no other city in the country are so many divorces granted and sought, and a correspondent gives the following as some of the reasons presented by ladies for separation from their lords:

One of our leading city clergymen, in his pulpit this morning, in commenting upon this alarming matrimonial demoralization; related a case that came under his own observation. During the past week, a lady, hitherto regarded as highly respectable, came to him and wished to consult him as her pastor, in relation to getting a divorce from her husband. The clergyman, greatly astonished, asked for what cause she sought a divorce. She replied that her husband, when she married him, was quite wealthy, but had lately become so reduced in circumstances as to be unable to supply her with the luxuries to which she had been accustomed, and this was the whole ground for seeking a divorce. The clergyman dismissed her with a sharp admonition. Another lady, a few days since, went to a lawyer and sought his advice as to the quickest way of getting a divorce from her husband. Whon asked for a cause, she replied that her husband was so cross she could not tolerate him. She acknowledged that he never showed any signs of violence toward her, and that he supplied her with every necessity. Another quite well known lady, some time since, sought by letter the protection of a well known banker, because her husband was unable to gratify her fashionable tastes.

A NEEDED REFORM IN OUR GRAIN SHIPMENTS.—We are informed that parties, backed by all the capital the enterprise requires, have it in contemplation to build grain warehouses in this city, provided with elevators similar to those used at the grain marts in Chicago and Buffalo, for loading and unloading cargoes of wheat and barley in bulk. It is to be hoped nothing may interfere to prevent the realization of this project this year, if possible The saving to the farmers and grain-dealers will be immense when we once reach the point of shipping all our grain exports in bulk, The surplus wheat of 1866 was, say 4 500 000 hundred and twenty pound sacks. The cost of each sack to the farmer was about twenty-two cents, or a total of $990,000 It will be at least a fourth greater, or $1,2 7,500 for the present year. When wheat is worth $2 per hundred the farmers can stand this discount, but when it comes down to $1 1 4 or $1 1-5—Western rates in a full harvest—they cannot stand it. All the grain of the West, and of Russia, is shipped in bulk. We must adopt the same plan or we cannot count upon successful competition in the markets of Europe or the Eastern States It will require a remodeling of our river steamers which do the bulk of the interior carrying trade, but the saving in sacks for a single year, and in the cost of handling the grain, would more than build the necessary ware-houses and now vessels. We had just as well do this thing now as postpone it Sooner or later it *must* be done Grain is our staple In less than a decade our average surplus wheat crop will be from thirty to forty millions of bushels, worth that many millions of dollars, and we can't afford to discount from twelve to fifteen per cent of this amount each year in a waste of sacks.—*Atta*, 18th.

THE NECK.

The neck is a very important portion of the human frame It is a sort of "check" which the head holds for its baggage in the journey of life. Lose it, and you lose trunk, chest, and everything, beyond recovery by any lost baggage agent in the country. It is highly connected, being closely related to the brain, and it is so much exalted that it is borne along on the tops of men's shoulders daily

There are a great variety of necks, some long, some short, some thick, some thin, some fat, some scrawny, some stiff, some pliant some clean, and a great many dirty Long necked folks enjoy their victuals more than those who have short necks The reason is obvious—they can taste them longer as they go down Whisky lovers wish their necks reached half a mile for the same reason Some of them have gone so far as to have their necks stretched on account of whisky. Short necked people are fond of loose shirt collars and nopolexy They can't disguise their thoughts, they are easily read in the face We never observed any difference between thick and thin necks among topers. Corn is no respecter of necks It goes through thick and thin to reach the human stomach.

Stiff neck'd people are very numerous—there are whole generations of them. Backbone is a good thing, but when it runs clear up through the neck and gets into the head it is carrying it a little too far. Asses and hogs have backbones of that description Them, too, the human neck may run to the other extreme and be so pliant that the head is never erect on the shoulders. This phenomenon usually attends weak knees that are ready to crook whenever "thrift follows fawning."

Necks are of immense benefit to the people engaged in the gentlemen's furnishing business. Without them paper collars wouldn't be thought of All sorts of articles are worn round the neck Some prefer scarfs, some cravats, some stocks, while many are satisfied with a round, white, female arm. It isn't unpleasant to have the neck encircled in that way, although there is danger in it often, particularly when this animated species of cravat belongs to some other man. Young lovers can't wear them without a choking sensation, yet they seem to like it amazingly. Hemp is employed in some sections to make cravats of. People who wear them once rarely try any other afterward Railroad ties are not good for the neck Drunken men have been known to adjust them to their necks quite frequently. Drunkenness has been cured in that way, but the treatment is severe. It hurries them into the next world, where ties are superfluous.

There are various ways of managing the neck. Some ladies, for instance, carry them very high, while others wear them very low. There are different opinions about "low necks." Men admire them generally, except in the case of their immediate female relatives. Some women are exceedingly severe on them, and pronounce them "scandalous." We have observed, however, that this class are not usually adapted by nature to the style which they denounce, being sharp as to their shoulders, and scrawny as to their necks.

The human neck may exhibit rare points of beauty—one of the rarest points being (particularly where they burn soft coal, as in this latitude) to have it perfectly clean at all times. Romancers go into raptures over their heroines' eyes, and hair, and cheeks, and teeth, but overlook the neck, proving that they are no *neck connoisseurs.*

[Brief intermission in the lecture, during which a boy who had slipped in without paying is taken out by the neck.]

My hearers, be careful what you pour down your necks. Enemies are frequently introduced there that insidiously creep into the head and steal away the brains, when no justice's warrant will get them back again.

My hearers, look to your necks.

TUNNELING THE HUDSON RIVER.—A correspondent of the San Francisco *Bulletin*, writing from New York, says

Another project, with substantial backers, contemplates the construction of a tunnel under the Hudson River, under the narrow extremity of Manhattan Island, under the East River, forming a connection between Long Island and the Jersey shore, with the outlets in the heart of New York. The boats of a single ferry company transported 40,000,000 passengers between this city and Brooklyn last year, while those running to Jersey city are reported to have conveyed 80,000,000. All the important railroads, like the Erie and New Jersey Central, the Camden and Amboy, and the Morris and Essex, which are now compelled to leave their terminus on the Jersey shore, and the several Long Island Railroads which start at Brooklyn, would eagerly avail themselves of such a tunnel, which might be made wide enough to accommodate them all, providing a separate compartment for foot passengers. The cost and trouble of transporting freight across the Hudson to the railroad stations, is a serious consideration with the great companies mentioned. All this would be saved by the tunnel, or if it should not be deemed advisable to bring trains under the city and there load them, a Pneumatic railroad through the tunnel is contemplated, by which freight may be shot from one side of the river to the other with dispatch and at a trifling expense. Financially, the Thames tunnel is a failure. Few beside sightseers pass through it, because it opens upon a rather repulsive part of the city, and because the Thames is spanned at many convenient intervals by many noble bridges. There is not, nor can there be a bridge across the Hudson, and the outlets of our tunnel would be in the very centre of population on both sides. Stranger things have happened than the realization of this project.

A GAY LOTHARIO.—The Denver *Gazette* has the following:

A friend of ours related a pretty good joke, which occurred at Judge ——'s office, in a city where he was sojourning a few months back.

It appears that the Judge's wife was rather fond of sitting on the bench with her husband for the purpose of listening to the cases as they were disposed of. A certain gay young gentleman, of poor but respectable family, made his appearance before the Judge about a dozen times every year, charged with increasing the population of the United States without a due regard to the marriage ceremony. He became so very notorious that his appearance in Court was always a signal for the Judge's wife to make her exit, inasmuch as the evidence which was given was scarcely calculated to suit the female ear. One day, this gentleman's name being called, Mrs Judge started and met the defendant face to face in the doorway

"Oh! Robert! Robert!" she exclaimed, "what, here again?"

"Yes, madam," replied Bob, "and for the old offense."

"Why, Robert," she said, "why don't you leave the girls alone? Why don't you get a wife?"

"Well, madame," said Robert, "so I do sometimes, but really the husbands do make such an awful fuss that it don't pay."
